FOR IMMEDIATE RELEASE

### Black Road and Shorewood Drive Signalization Project

The Village of Shorewood has retained the contractor, PT Ferro Construction Company, to construct the Village's Black Road and Shorewood Drive Signalization Project. This scope of work includes installation of a new traffic signal at the intersection, construction of a right-turn lane on southbound Shorewood Drive onto westbound Black Road, new asphalt surface, sidewalk ADA improvements, and other related work.

Depending on weather conditions, construction is tentatively scheduled to begin Monday, April 5<sup>th</sup>. Due to the complexity of the project, you will not be able to turn north onto Shorewood Drive north of Black Road. A detour route using Black Road west to River Road North to Vertin Boulevard east to get back to Shorewood Drive will be provided. The project is anticipated to be completed by the end of June 2021.

This project, which was originally planned for last summer but was delayed due to the pandemic, must be completed this spring in order to avoid a substantial cost increase. We apologize in advance for any inconveniences this may cause you. The Village of Shorewood will strive to make this project proceed as efficiently as possible. With your cooperation and understanding, working together will make this project a success! If you have any questions or require additional information, please contact Public Works Department at 815-553-2321.
